English

Urdu

PROFILE

A passionate and determined person who is always willing to learn new technologies and improve skills. I want to work in an environment where I'm given a chance to prove my creative capabilities and to help the organization in achieving its goals through hard work and dedication.

WORK EXPERIENCE

Software Engineer

Berks Insulation LTD   Sep 2023 - Jan 2024

- Engaged in the role of a software engineer with a focus on CRM (Customer Relationship Management) development.
- Proficiently utilized the .NET MVC framework for building and enhancing features within the CRM system.
- Actively collaborated with a team of developers to contribute to the overall design, development, and maintenance of the CRM application.
- Successfully implemented and integrated new features into the CRM system, enhancing its functionality and addressing specific business requirements.
- Demonstrated expertise in utilizing the .NET MVC architecture, ensuring robust and scalable solutions for the CRM platform.
- Participated in project management activities, coordinating with team members to meet project milestones and deadlines.
- Ensured the delivery of high-quality code by actively participating in code reviews and implementing best practices.
- Demonstrated a commitment to continuous learning, staying updated with the latest technologies and industry best practices to enhance the CRM system.

Software Engineer

Cinnova Technologies   Sep 2022-Sep 2023

- Worked on a team to develop and maintain several web application.
- Collaborated closely with the design team to ensure the successful translation of wireframes and mockups into intuitive and user-friendly interfaces. Implemented new features and functionality using React, Redux, and RESTful APIs.
- Conducted unit and integration testing to ensure high-quality code and application performance.
- Implemented robust and scalable code structures, following design patterns and best practices to ensure maintainability and extensibility.
- Conducted thorough testing and debugging to identify and resolve issues, ensuring the stability and quality of the developed applications.
- Utilized project management tools like Jira to track tasks, monitor progress, and ensure on-time delivery of projects.
- Advocated for well-tested and documented, high quality code.

Software Engineer

Techverx   July 2021-Sep 2022

- Collaborated with cross-functional teams, including product, QA, and design, to define requirements, design interfaces, and ensure a seamless user experience.
- Translated wireframes and design prototypes into pixel-perfect UI/UX implementations, focusing on performance, responsiveness, and aesthetics, Leveraged design patterns to enhance code modularity, maintainability, and scalability.
- ncorporated tools like CircleCI, Github actions for automating the app distributions.

Software Engineer

Pixarsart   Aug 2020-July 2021

- Contributed to the development and maintenance of web applications using
- HTML, CSS, React, Redux, and JavaScript. Work with design team to ensure pixel-perfect implementation of user interfaces and maintain design consistency throughout the application
